Notes

- Pilots purchasing a block of hours have an 18 month period to use the hours. SueAir recommends pilots aim to fly the hours within a 12 month period to give a margin for cancellations owing to bad weather. Refunds are not given for any hours remaining at the end of the 18 month period.
- A block of hours is NOT transferrable and may only be flown by the pilot who has purchased the hours.
- Pilots are only charged for take-off to landing time (determined from the change to the Total Time in Service reading shown in the fuel page on the MFD of the G1000).
- The hire rates under all of the above options include fuel, parking & hangarage. The hire rates also include landing fees at North Weald. Circuit fees at North Weald are payable in addition. Landing, circuit and IFR fees at Gloucester are payable in addition. Rates excluding fuel are available on request.
- SueAir operates a cancellation charge/deposit policy and details can be found on the Bookings page www.sueair.co.uk/booking.htm
- Life jackets are available for hire at the cost of £1.25 + VAT for the first 2 days and then £0.90 + VAT for each additional day.
- A life raft is available for hire at the cost of £12.50 + VAT for the first 2 days and then £9.00 + VAT for each additional day.
- There is a legal requirement binding on pilots flying aircraft using Jet A1 to pay excise duty to HM Revenue & Customs (HMRC) for fuel used during a 'private pleasure flight'. For more information, please see the Hire Rates page.
